

“Why do you vote for a failed system?” In order for a government to work the people have to be informed with a free press and free speech. In today’s environment we do not live under a **recognized government of a free people!** We live under **emergency powers** voted in by congress called the **law of necessity under military rule.** We are still participating in the Civil War of 1861! You people still vote and created the environment for these **defacto traitors** to control us today. When all you have to do is say “no” or even better then that learn that there are two governments to choose from, to live under, and its right before your face! It’s not taught by our representatives of government or your handler. Please use your computers and go to Title 28 Sec. 1746-1 and see for yourself the proof that another government exist, its called U.S.A. the republic “united States of America” remember the **U.S.** is territorial government. You ask what the difference is! **United States of America** is the constitution and the bill of rights and the declaration of independence, the “**United States**” is a territorial government of the international type and only gives to its **subject’s** privileges by a corporation, See Title 28 sec. 3002. So what does one do like you who want to stand up and enforce your rights? Well let’s look at each government and what the word people mean in each government mentioned above. The people in the **Article of Confederation and the “Constitution for the united States of America”** are the **sovereign’s** and government is supposed to administrator this government so our rights are not trampled on, thus the legislator’s of this type of government cannot vote out the people’s rights and protections the common law gives to this republic called our dejure government. On the other hand we have the “United **States**”, **what does that mean, united States of what?** To complete the question is to answer the problem. You the people have to declare who you are, your silence allows the presumption of existing U.S. government to place you in a **subservient position as noted in the civil law code of the State’s where you are considered a subject of the codes.** Sense the 1930 you were **hypnotized by your officials into believing that the old government exists** and meanwhile you are living in the territorial government by your **ACTIONS** of doing nothing or you’re signing something without qualifying your signature (UCC). Only territorial citizens are called U.S. citizen residents! Checks the perjury statements on Gov. Forms, are they U.S. or U.S.A.? Who are you claiming to be? Stop complaining and start asking question. Jury duty is U.S. only! I do not see “America” in the 14<sup>th</sup> amendment?
